YOUTH FOR ROAD SAFETY

The training "Youth for Road Safety" will be held in Skopje, Republic of Macedonia, from 1 to 7 November 2017.

Aim of the training

- Education and raising awareness among youth for their responsible participation in the traffic
- Encouraging and motivating youth to actively engage in social processes with a special focus on stimulating them to establish organisations and to implement activities for improving the road traffic safety
- Training and qualifying the youth for implementation of projects and traffic education campaigns
- Collecting ideas, initiatives, proposals and suggestions from youth and their implementation in the direction of improving the road traffic safety
- Active inclusion and support of youth in social processes and activities
- Organisation of traffic education event for the purpose of educating the participants in the traffic and reducing the number of dead and injured persons in traffic accidents
- Strengthening the communication skills and

networking of youth from different countries in Europe and the region.

Lecturers

RCRTS
AMERIT
University professors
Partner organisations from the country and abroad

Programme

The International training "Youth for Road Safety" is composed of a theoretical and practical part combined with visits of partner organisations from the country.

ABOUT THE REPUBLIC COUNCIL ON ROAD TRAFFIC SAFETY (RCRTS)

RCRTS was established on May 16, 1962. In the course of its long-standing activities, the RCRTS is becoming one of the leading bodies in the Republic of Macedonia, the main goal of which is to promote and develop the traffic education, upbringing, culture and ethics among all participants in the road traffic. The Republic Council is one of the initiators for greater implementation of measures that will influence the improvement of the road traffic safety. At the same time, the Council also performs the function of a coordinator of several competent authorities, since their joint action is based on undertaking specific activities aimed at improving the road traffic safety.

RCRTS is a full member of the European Transport Safety Council (ETSC) and the International Organisation for Traffic Safety (La Ride Prevention Routier International).
